The Association for Political History (APH) aims to strengthen international cooperation in the field of education and research, thus promoting the quality of research. Furthermore, the APH will provide high-quality training opportunities for PhD candidates and advanced students pursuing Masters' degrees in Political History.

While the APH was inaugurated as a European initiative, it will develop an international profile.

The Association defines Political History broadly and wishes to be inclusive, incorporating, amongst others, the History of Institutions, Parties, Public Policies, Political Cultures and Political Ideas. The APH welcomes historians working from different perspectives, such as, for instance, Transnational History or Gender Studies.

After the last annual conference in 2017 hosted by Jyväskylä University, we are pleased to welcome you today.
